SUMMER SCHOOL REGISTRATION FORM

Do you want to travel through the universe this summer, get a jump-start on next year, or explore something entirely new? We invite all those curious minds to come to learn about our 4-week summer school. Our philosophy is simple. Every student is extraordinary. Our mission is to help him/her discover his/her inner desire for life-long learning by developing the unique and diverse potential of each child through an innovative curriculum and dedicated teachers. Learn about the continents and travel to unknown lands that inspire and expand your desire to become informed stewards of our ever-changing world. You just might be working at NASA one day piloting the next rover mission to Mars, or trying your hand in programming. We hear the valley is always in search of the next creative whiz. We invite curiosity; in fact we thrive on it. Join us this summer, enrich your mind, meet other curious adventurers, and get ready for an unforgettable experience.
